Our Commitment to Accessibility

The Unitarian Universalist Congregation
of South County (UUCSC)

A “Virtual Poster Paper” presented by: Elizabeth Dalton and Myron Waldman

Accessibility for All: From Inspiration to Reality

Goal: To create a welcoming and sacred environment for all.

UUCSC recognizes that we are complex human beings with unique strengths and challenges. We offer solutions for our congregation, and visitors to whom accessibility can be a great challenge. Barriers relating to vision, hearing, mobility, communication, understanding, and emotions, can prevent people from enjoying services and programs.

Accessibility features now in place at UUCSC:

- Recorded sermons
- Large print hymnals
- Accessible bathrooms
- Accessible seating areas
- Wireless microphones
- Automatic handicap-accessible entrance door
- Designated handicap-accessible parking spaces
- Website redesigned for maximum visual accessibility
- Large print orders of service
- Speaker array throughout the sanctuary
- Hearing loops in the sanctuary and choir
- Ramped entrances: to sanctuary and pulpit
